Summary

Full-Stack Developer (5 years) skilled in React, Next.js, TypeScript, Node.js, and cloud platforms. Contributed to high-traffic products serving 8M+ users and $250k/month, and founded an AI-powered SaaS used by hundreds of users.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Vue, Tailwind, Redux, Zustand, TanStack Query

Backend: Node.js, Express.js, NestJS, .NET, ASP.NET Core, PostgreSQL, MongoDB, Redis, SQL

Tools & DevOps: GitHub Actions (CI/CD), Docker, Firebase, Supabase, AWS, DigitalOcean, Vercel

Testing: Cypress, Jest

Experience

Founder & Full-Stack Engineer | AiNameIt.com | Nov 2024 - Present

- Built and launched an AI-powered SaaS used by hundreds of users, delivering business name and domain-availability suggestions in real time.
- Designed and developed the entire product end-to-end (Next.js, TypeScript, Zustand, Supabase, OpenAI, Rapid API, Resend...), including backend logic, responsive UI, auth, and deployment.
- Implemented automated domain checking, analytics, and SEO-driven growth features that attracted organic traffic with zero ad spend.

Full-stack Software Engineer | SameDayCustom | Monroeville, United States (Remote) | Jul 2022 - Present

- Built and maintained core features for a high-traffic e-commerce platform serving 8M+ users and helping scale revenue to $250k per month.
- Delivered a dynamic SEO automation system (Strapi + AI-generated content), generating landing pages for 4,000+ U.S. cities, significantly increasing organic traffic, conversions, and revenue.
- Integrated Generative AI into customer support tools, reducing response time, improving communication quality, and lowering error rates.
- Solved abandoned cart recovery by integrating Klaviyo, improving automated email flows and driving regained revenue.
- Automated internal order-assignment workflows, saving 100+ staff hours/month and preventing additional hiring.
- Implemented analytics tools (Mixpanel, GA4, Zendesk...), enabling data-driven product and marketing decisions.
- Improved performance through caching, API optimization, and code refactoring (approx. 20–35% faster load times).
- Collaborated in a cross-functional Agile team to deliver features quickly and reliably.

Frontend Developer | RaydianSoft | Lagos, Nigeria | May 2022 – Jul 2022

- Built responsive UIs with Vue, TypeScript and Tailwind, improving UX and development speed.
- Delivered reusable components and collaborated closely with design and backend teams.

Frontend Developer | Newcore Technologies | Ilorin, Nigeria | Jan 2021 – Apr 2022

- Developed React-based UI components and improved cross-browser compatibility.
- Integrated REST APIs and contributed to internal workflow tools.
